10) The water works system in Bangalore and Mysore has been designed on the basis of 12½ gallons per head of population per day and that has also been the ruling maximum rate hitherto allowed for institutions for which a supply has been given on the basis of numbers of persons contained therein. In the case of the jails under reference, the free allowance per head of convict population was fixed in G.O. No. 1788-800/P.W. 8739-51 dt. 23rd August 1916 at 6¼ gallons per head, per day, or half of what is allowed for a free citizen. Later on, this was increased to the maximum of 12½ gallons for a free citizen - vide General Secretary's memo no. J. 178 dated the 19th July 1917. There can be no question of further increasing the free allowance when the maximum of such allowance has already been reached.

General ..... *Department.*

SIR,

With reference to your Memo No. 178/Pris 62-16-4 dated 19th June 1917, forwarding for my information, a copy of letter No. 1409/7260 dated the 11th idem, received by you from the Joint Secretary to Government, Public Works Department, raising the free allowance of water from 6¼ to 12½ gallons per head on account of prisoners confined in the Jails of the State, I have the honor to bring to your notice that, the Superintendent, City Water Distribution, Bangalore, has sent to the Superintendent, Bangalore Central Jail, for acceptance, a bill duly prepared as per revised scale, for Rs. 7.929/- on account of excess water charges for the period from April 1914 to the end of June 1917.

2. The Superintendent, Vanivilas Water Works, Mysore, has not, as yet, sent in his revised bill in the case of the Mysore Jail; but the probable amount of the bill is roughly estimated to be about Rs. 2,000/- for the period from April 1914 to end of June 1917.

3.

(24

3. The total amount of excess water charges due from both the Jails as detailed above, comes up to nearly Rs. 10,000/- which has to be adjusted now. The sum of Rs. 5,000/- provided for expenditure under the head "Excess Water Charges--2Jails and Lock-ups-19 Jail", in the current year's Budget, is required to meet ~~the said~~ such charges for the current year, and no savings are anticipated, either from this head or from any other heads of expenditure relating to this Department to meet the extra expenditure of Rs. 10,000/- now required.

4. Under the circumstances I request that a fresh allotment of Rs. 10,000/- may kindly be sanctioned to meet the charges referred to above.

I have the honor to be,

Sir,

SIR,

With reference to your letter No. J. 1037/Pris 19-17-2 dated 18th September 1917, asking me to investigate and report for the information of Government, how far the excess water - charges could be held to be reasonable and justifiable and not the outcome of avoidable wastage on the part of the Jail authorities in - both the Jails of the State &c, I have the honor to state as under:-

2. The point at issue has been investigated by me and I am to state that the wastage of water, if any, in the Jails is unavoidable Further, I think that the quantity of wastage can only be gauzed if - separate meters are kept for gauzing the water consumed in each of - the industries carried on in the Jails.

3. I forward herewith copies of letters received from the Superintendents of the Jails together with their enclosures, which furnish figures for the past three years showing the excess quantity of water consumed during the period.

4. In this connection, I am of opinion that it is necessary to increase the quantity of free allowance of water in case separate meters are not kept for gauzing water used for other than domestic purposes.

the matter is of opinion that all water drawn in excess of the free allowance should be paid for by the Jail Dept. Govt. are pleased to accept this view and sanction the charges for excess water consumed in the Jails during the period referred to above, an allotment of Rs 10,000/- being provided therefor in the next year's budget. It is observed that no reason has been assigned why there should have been a larger consumption of water than that allowed for free citizens and that no big industries have been established in the Jail justifying such an excess.
